

Forward Air Controllers

2016 Wreath-Laying Ceremony

Saturday, October 8, 2016, at 9:30 AM (rain or shine)

Welcome to Williamsburg Memorial Park. Today, we honor 224 Forward Air Controllers who made the ultimate sacrifice during the Vietnam War. These brave men typically flew unarmed propeller-driven aircraft, like the Cessna O-1 Bird Dog shown on the cover of this program. FACs were responsible for everything from reconnaissance to directing combat operations, which often included protecting our brothers on the ground. For many U.S. and allied ground forces, FACs were the angels in the sky. On behalf of the Forward Air Controllers Association, thank you for being here.
